

- Publishes in HTML5 format
- Supports Experience API (Tin Can API)
- Adaptive Plug-in Architecture
- Incorporates an Audience Response System
- Drag & Drop, Single/Multiple Select Quiz Templates

Simwriter® professional

THE ONLY PATENTED SIMULATION TOOL
US patent #8,798,522 B2

NEXLEARN® SimWriter makes creating immersive learning simulations simple. With SimWriter your organization can create effective simulations quickly and easily.

www.simwriter.com

More than a dozen NEW features added to the industry's only patented simulation authoring tool.

Map, author, design, build, and test all within the same tool. Transform today's innovative learning ideas into tomorrow's award-winning training programs.

Built-in Features and Components:

- Character library
- 3D environment library
- Navigation component library
- Choice Interactions
(individual scoring & learning objective settings):
 - Menu Choice
 - Multiple-Select
 - Single-Select
 - Drag-and-Drop
 - Images as Choices
- Feedback
- Textbox
- Image
- Movie
- Sound
- Buttons and Hotspots
- Hyperlink
- Performance reports (Text/Graph)
- Timer
- PowerPoint import functionality
- Topic container
- Custom plug-ins
- Question bank
- Text export/import functionality
- Custom templates
- Copy/paste from project to project
- Media Manager
- On-the-fly test options
- Pack-and-send .zip functionality
- SimWizard rapid development functionality
- Media Control Buttons
- Text formatting support for superscript, subscript, vertical line spacing, horizontal indentations
- Bank of customizable stages

Scripting:

- Built-in scripting editor/compiler
- Simulation intelligence controls

Branching:

- Simple and complex branching options
- Conditional branching
- Memory points

Output Options:

- Action Script 2.0/3.0
- HTML5
- iOS App
- Windows projector (.exe) with/without ARS (Audience Response System)

Course Tracking:

- AICC
- SCORM 1.2
- SCORM 2004
- Experience API (TinCan API)
- Local bookmarking
- Enhanced support for submitting scoring anywhere in a simulation & final scoring to an LMS

Media Formats Supported:

- MP4 (H.264)
- SWF
- FLV
- MP3
- JPEG
- GIF/Animated GIF
- PNG

NexLearn® SimWriter® is the industry's leading immersive learning and simulation development tool. Contact NexLearn today to schedule a demonstration.
